The Pre Conference Workshop on 27th September, 2012 Leading Your Organization for Innovation

by **Dan Buchner**, Director, Innovation Incubator
The Centre for Creative Leadership(CCL), USA

Dan Buchner

At

Convention Centre, Naoroji Campus, Tata Institute of Social Sciences, Mumbai 400 088
Time: 9.30 a.m to 6.00 p.m

Innovative Leadership is about bringing new thinking and different actions to how you lead, manage and do your work.

This workshop will cover the leadership competencies that Center for Creative Leadership research has shown fosters innovative thinking and behaviors in organisations. Through highly interactive exercises you will use these competencies and apply them to real world challenges. During the workshop you will experience:

- **The innovation mindset**
- **The innovation skill set**
- **The innovation toolset**

The participants (Business Unit Leaders/Heads, HR Professionals, Managers from all functions, consultants, trainers and academicians) will gain an understanding of how your role as a leader can affect the innovative culture and climate with in your organization.

Dan Buchner is the Director of Innovation Incubator at the Center for Creative Leadership(CCL), USA. The incubator is focused on developing innovative ways to deliver CCL's world-class leadership development expertise to leaders worldwide. Dan is an award-winning designer, entrepreneur, and innovation consultant who has driven innovation in a wide range of organizations worldwide. For nearly 30 years, Dan has been developing innovative new products, creating compelling new services, and helping organizations establish design and innovation capabilities to drive their success. Dan is a sought-after international keynote speaker and workshop facilitator on innovation practices and organizational strategies. He has directed interdisciplinary organizational innovation projects for leading organizations such as Procter & Gamble, PepsiCo, USAID, and the Prime Ministers Office of Singapore. Dan believes in the power of innovative thinking to positively impact society. His recent work has involved using innovative thinking as an economic, leadership and social development tool in emerging markets such as South Africa, El Salvador, Jordan, and India.

TATA INSTITUTE OF SOCIAL SCIENCES (TISS) AND
FORUM FOR EMOTIONAL INTELLIGENCE LEARNING (FEIL)
PRESENT

Indian Innovation Forum 2012

Theme: Innovation in Practice

On 28-29 September 2012 Time: 9.30 a.m to 5.30 p.m

At

Convention Centre, Naoroji Campus, Tata Institute of Social Sciences, Mumbai 400 088

Innovation strategies, capabilities, activities are central to the development of organisations and societies. It is widely accepted that India needs to unleash its innovation potential in all sectors of the economy for enhancing efficiency, effectiveness and to address significant challenges facing the society. The current scenario in our country calls for innovation strategies cocreated by Government organisations, educational institutions, business enterprises and not for profit organisations to facilitate the creation of an innovation eco-system that can promote, diffuse and scale innovations for inclusive and sustainable growth.

The Tata Institute of Social Sciences (TISS) and the Forum for Emotional Intelligence Learning (FEIL) are committed to continuously advance the understanding of state-of-the-art thinking and practice of innovation. Both TISS and FEIL take a broader perspective of innovation that includes entrepreneurs, for and not-for profit organisations, and social innovations as focal areas for inquiry and action. The Innovation Forum 2012 at TISS is conceived as a platform for facilitating dialogue among different constituents, disseminating information, developing new partnerships and evolving ideas for concrete actions. The forum aims to bring together CEOs, leading researchers, business practitioners, entrepreneurs, consultants and grass root innovators to share, develop, and spread new ideas and practices in the area of innovation to create a better world.

Key Note addresses and Round Table sessions:

Renowned experts, practitioners, thought leaders and researchers in the area of Innovation will address the audience on both the days on successful practices, organisational environments and tools that foster innovation and on scaling innovations.

The CEO/ Director round tables will bring together renowned business leaders to deliberate on various mechanisms for creating an innovation eco system in our context. They will reflect on the complex environmental challenges and contribute to policy development at various levels.

Ideas and Views: Paper Presentations

To advance the knowledge frontiers of innovation in a global context, the Forum serves as a distinguished platform for academicians, professionals from corporations and social enterprises, entrepreneurs, policy and independent experts to present their work in the area of innovation. The presentations can take the form of empirical or conceptual papers, case studies, or demonstrations of innovative technologies and practices. The submitted papers will be peer reviewed and the best papers will be published also in the form of seminar proceedings and books. Best paper awards will be presented to three outstanding papers presented at the Global Innovation Forum.

The following themes provide an indicative set of ideas around which the conference will be organized and authors shall consider them while developing their manuscripts.
