

Forum for Emotional Intelligence Learning (FEIL) was created by the coming together of eminent Academicians and Professionals committed to a common cause of building caring and compassionate Leadership. Many of these people have and continue to contribute in making the world a better place to live in. FEIL was registered on 29th December, 2008 at Charity Commissioner's office, Mumbai as a non-profit Society.

The first step was taken by the top Leadership at Hindustan Petroleum Corporation Limited (a Fortune 500 Company) through their appreciative understanding of the need for inspirational Leadership as the pivot of organizational success. We discovered that Leaders must appeal to the heart as much as to the head because the best decisions happen through qualitative links between passion and reason.

FEIL stands for the core purpose of liberating human potential for a better tomorrow.

The FEIL Leadership Summit, with Henry Moon Ph.D., (Organizational Behavior, Michigan State University) will be held on 17th May 2016, at Taj Lands End, Bandra (West), Mumbai.

- Professor of Management CEIBS (China Europe International Business School)
- Former Associate Professor of OB, London Business School
- Former Assistant Professor of OB, University of Maryland
- Former Assistant Professor of OB, Emory University
- Former Adjunct Lecturer of Management, University College, London
- Former Visiting Professor of OB, Indian School of Business

The Leadership Summit on 17th of May focuses on the twin themes of Leadership and Innovation. The Summit would help us explore and identify steps of creating & nurturing quality leadership and foster an organizational culture which promotes Innovation. Dr. Henry Moon, an acknowledged thought leader and a renowned faculty who had taught and researched in renowned Institutes like London Business School would help us understand the constructs of leadership and Innovation.

We have noticed positive correlation between organizational competitiveness and good leadership in a VUCA world. Good leadership enables a climate of Innovation. Receding Entry Barriers on a global basis are predictive of increasing competition and market volatility. Developing quality Leadership and Innovation capability is thus a clear mandate.

Globally and more so in India, organizations which enjoy quality Leadership and foster an environment of Innovation and creativity would create sustainable competitive edge.

FEIL will bring out a Souvenir giving synopsis of the talk and deliberations during the Summit and will carry important photos from the Sessions and Advertisement from esteemed patrons.

Souvenir charges for the Leadership Summit with Dr. Henry Moon:
